PARAFFIN TREATMENT

Hands or feet are dipped into hot wax containing lanolin, aloe vera, vitamin A&E for treating intensely dry, cracking, flaking skin. Hands or feet are then wrapped in a towel, allowing hot wax to penetrate skin one step further than lotion. Results are dramatically different, revealing a healthier and softer skin. Ideal for dry heels or winter skin.

PINK & WHITE (SOLAR NAILS)

Pink & White Acrylics, also called "Permanent French"- the most popular look among women. It's durable, classic, clean, natural, shiny and ready to go in less than 1 hour without the wait for polish to dry and the polish never wears off. A non-yellowing formula is done in a double process with white powder for the free edge and two different shades of pink to choose from. It never turns yellow under the sun or tanning bed.
